

ANN ARBOR FIBERARTS GUILD MEETING

December 14, 2020 via Zoom

6:30 p.m.- 7:00 p.m. Zoom group chat.

Zoom Coordinator - Nancy Staub called the meeting to order at 7:00 p.m.

Program - Anjanette Bunce introduced the speaker of the evening. Carol Milne presented a program on “Knitted Glass: How Does She Do That?”

Treasurer - Teresa Garland thanked FAN (Fiber Arts Network) for the money that was given to the Guild. We have purchased a microphone, fixed up computers, got a subscription to Zoom, and helped pay for a number of programs. Support of the program this evening finishes the donation.

Exhibits - Cindy Harris reminded members of our 2D/3D online Fiber Art Exhibition in January. The entries are due by January 15, 2021. Photos go to Mary Valerie Richter and paperwork to Cindy. All information is on the website.

MLH - Betsy Szymanski gave a very complete report on how the MLH Conference will be held in 2021. It will be all virtual and go from January to August. On January 4, lectures, seminars, and workshops will open for registration. There will also be individual, judged exhibits, and the guild exhibits “Pandemic Creates”. There are learning grants of up to \$300 available, application due in March. The MLH mentor program is also available for both mentors and mentees. Complete information is available at MLHGuild.org.

President - Carol Fleischer concluded the meeting with a reminder that our next regular Zoom meeting will be Monday, January 11, 2021. The program will be “The Fabric of our Civilization, How Textiles Made the World” by Virginia Postrel.

50 members attended.

Respectfully submitted,
Jan Frank, Secretary
